JSR Happenings

By Harley Davidson,
SASS #47309

Happy February. So far we have seen nice, warm weather and freezing cold temperatures. Mother nature sure likes to toy with us this time of year!

Don't forget that it is time to send your membership application to renew your membership or join the club! Be sure to fill out the

application that was included in the January Edition of the Gazette and send it in. If you didn't get the last edition you can always go online to our [website](http://www.jeffersonstateregulators.com), www.jeffersonstateregulators.com and download one from the Links section.

It is also that time of year to start preparing for our annual shoot in August. If you are interest in helping

out come to the business meetings the second Monday of every month at Angelo's Pizza in Phoenix. The meeting starts at 6:30pm in the meeting room. And, just in case you are wondering, the restaurant doesn't require that you buy food to attend. The more members that get involved the better! Hope to see you there!

Happy Reading!

KNIGHT VISION

By Jed I. Knight
SASS #36423

January's shoot had 34 shooters. Everybody enjoyed relatively mild weather, especially in comparison to December's shoot! Thanks to all who helped out with hauling steel in and out again this month!

Stage one, JSR's "shotgun stage" was written by none other than JD Walker. 14 shotgun rounds and 10 pistol rounds were shot on this stage with Purgatory Smith having the fastest time of 41.24 seconds.

Col. Cornelius Gilliam wrote stage two 10 rounds rifle, 10 rounds pistol and 6 rounds from

the shotgun. This stage's fastest time was by Ramblin' Dave who managed to shoot it in just 33.38 seconds.

Stage three was written by Bear Bone Smith, 6 rounds of shotgun, 10 rounds pistol and 10 rounds rifle, fastest time on this stage was by Purgatory Smith; he shot it in just 23.88 seconds.

Stage four was written by MT Dawson, this stage started with 5 rounds of shotgun, followed by 10 rounds from the rifle and then 10 shots from the pistols. This stage was shot by MT Dawson in 37.63 seconds (hmm... stage writer and fastest shooter on the same stage...)

Stage five was written by Jed I. Knight, this stage consisted of 10 pistol shots from a seated position, 10 rifle shots and a minimum of 4 shotgun rounds. The fastest time on the stage was by Purgatory Smith; he shot it in 32.20 seconds.

Congratulations to our THREE shooters who managed a clean match, Bear Bone Smith (3rd Overall and 1st place "Traditional"), Treacherous Jack (5th Overall and 2nd place "Traditional") and Jed I. Knight (8th Overall and 1st place "Frontier Cartridge Duelist").

Thanks to ALL of our stage writers. (Continued on Page 2)

January Match Scores

Highlighted name indicates a clean match

KNIGHT VISION (continued)

Remember to tell your stage writers what you do and don't like in a stage!

Special thanks to everybody on Posse II for helping our

Buckaroo shooter "Smash" and offering to let her use various guns. I think Fairweather Kate opened a can of worms by letting Smash use her '97 – the kid says

that's what she wants now (it was really nice, and the stock was cut down to fit her!). So, I suppose in the near future "Uncle Jed" will be in the market for a '97.

Congratulations
Bear Bone Smith
Treacherous Jack &
Jed I. Knight
On shooting a
CLEAN
match!

MONDAY

Winter range shoots Arizona March 8 through the 12. 12 stages and it costs \$195 dollars

Motion to adjourn by Oregon Outrider-2nd H Apple. Motion carried.

Member Announcements

TOXIC SMELL AT GUSSIED UP:

Gussied Up Closes in Jacksonville due to toxic substance in building making the owner Loreli Thayer & dozens of other customers ill within minutes to several hours in store. The landlord is refusing to do anything about it .The gas co. & fire department can't detect anything on their meters. The health department, City of Jacksonville building inspectors are also saying nothing is wrong . They have been only to do a visual inspection. One theory is maybe a connection to geothermal activity underground in all the gold mining tunnels that are under Jacksonville.since 1850's. The building is also built on top of a natural water source. Also on bottom floor of building are newly remodeled sewer lines.& recent work that went on in Jacksonville to redo all sewer & plumbing all last year. It would take special meters to check all this out. No one seems to know how to check for this. It may be a big can of worms that no one even wants to begin to deal with. The reports of all these symptoms have been going on for at least 2 years, The dots have just been starting to connect a few days after News Years-when Loreli just about has passed out after working a 10 hour day in store. Customers could not stand how they were feeling & would leave. Loreli also has pages of customers names & address with phone # if anyone would like to verify.. If anyone has ever experienced smelling gas fumes, or other weird smells, headache, nausea, confusion, spacey, loopy or dazed feeling (even after leaving store), burning eyes, sore throat, being tired or sleepy even after hours of leaving store, then not being able to sleep at night after being in store same day, or just feeling weird while being in Gussied Up-please call Loreli at 890-8839 or e-mail at gussiedup@ hot-mail.com. Any suggestions or similar stories would be appreciated.

As soon as shop is moved & stored & Loreli gets back on her feet she will notify everyone. She will be working from her home until she is better able to make a decision on relocating.
